RAYOS PROPERTY DETAIL

THE COMMON AREA

The space where your group all comes together for fun, meals, and a connection to the outside world. Our open air kitchen sits at the center of the space and is surrounded by comfortable sofas, hammocks, and the private dining area. There's bar fully stocked for those who partake and also those who don't. Just outside is the pool with palm trees, sunshine, ocean views, lounge chairs, and an outdoor shower.

Start your day here with a cup of Costa Rica's finest coffee at sunrise and end it with an ice cold cocktail, beer, or coconut while you watch the sun set over the Pacific Ocean. If you need to connect, we've got you covered with our newly added fiber optic internet connection. Feel free to bring your own music and set the mood, because this beautiful space is yours for the week.

THE ROOMS

At Rayos, we offer the space to host groups of 10 to 45 people in comfortable lodging, with 25 acres of property at your disposal. There are 8 villas, four uphill and four downhill, and then four more apartments that hug the common area. Each villa has two or three rooms with different bed arrangements (single, double, and shared options) available depending on your group's size and host specifications.

We have a total of 18 spacious rooms, each with its own unique character, and all of which feature modern amenities such as A/C, on-demand hot water, and private bathrooms.

Toiletries, fresh linens and towels are provided for every guest. All rooms are located within a 3-5 minute walk from the main common area and have patios for lounging outdoors.

THE GROUNDS

Encompassing more than 25 acres, our grounds are a mix of wild jungle and manicured tropical getaway. Situated on top of a hill, there are panoramic ocean views and cool breezes. The grand layout creates opportunities to explore unknown territory, discover new activities, and create unique experiences. The grounds include an outdoor gym, yoga deck, obstacle course, fire pit, trails through the jungle and to the beach, pool, restaurant, and a lush event space overlooking it all.

MOVEMENT & FITNESS

We've built dedicated spaces to fuel movement and wellness activities.

We offer a covered yoga / movement deck with breathtaking sunset & ocean views, an outdoor gym featuring a pull-up rig with a variety of exercise equipment, and a mile-long jungle obstacle course built using actual specs for military training grounds. Beach yoga & workouts are also just a 10-minute walk down the hill! Coming July 2018- Wood Floor Covered Shala

THE FARM

We have a strong appreciation for the unending bounty that the land here provides us, and we love to share it with our animal friends. Our little finca is home to ducks, chickens, goats, and, of course, a few dogs as well.

The property is also home for many other animals, insects, and plant life too. Papaya, mango, lime, coconut, banana and camote trees dot the property, but the howler monkeys eat most of the good stuff before we can get to it. Our herb gardens supply us with plenty of fresh basil, mint, rosemary, thyme and parsley for the kitchen, and our little tobasco chilies make an amazing hot sauce!

If all of that is not enough, Playa Ostional, one of Costa Rica's turtle nesting grounds, is just at the bottom of the hill. Witness the miracle of the sea turtles laying their eggs or the babies hatching and taking their first steps into the sea. Ask us about setting up arribada tours for your trip.
